School Board

FRANK B. BENNETT

Salem High School may well be proud of Mr. Frank Bennett, Salem's superintendent of schools. Mr. Bennett is one of twenty-five superintendents in the United States chosen to attend the Columbia Educational Conference at Columbia University, New York City, this summer. He will also serve as a member of the faculty at Oregon College of Education during the summer session.

As superintendent, he has shown understanding of the problems of high school students and has fostered a far-sighted policy of development for the school system. Mr. Bennett possesses a keen, analytical mind and a pleasing manner, especially evident in his many public appearances as a speaker.

The Salem school board is composed of five members who, in cooperation with Mr. Bennett, are the group responsible to the citizens of the community for the maintenance of the public schools. Each is a prominent person in the civic life of the community and is elected for five years by the voters of his district.

Heading the board this year is Mr. Ray Harland, chairman, followed by Mr. Donald A. Young, vice-chairman, and Mr. Connell C. Ward, clerk. By rotating in office once a year every member of the board is given opportunity to become the head officer. Much of the detail work is done by standing committees appointed by the chairman.

These people serve without compensation and seldom receive the honor due them. In addition to attending bi-monthly meetings, each must assume the personal responsibility for study, consideration, and finally a vote upon issues that affect the whole future of education in the city. They have demonstrated a real interest in the educational problems of the schools.

The school board represents a cross section of the community. Two lawyers, an insurance representative, a merchant, and a housewife are serving at this time. All have a personal interest in improving Salem's school system as each family represented has children of school age.

Left to right—Mr. Roy Harland, Mr. Harry W. Scott, Mr. Frank B. Bennett, Mr. Donald A. Young, Mr. Ed Majek, Mrs. David Wright, Mr. Connell C. Ward.

Principal, Deans

Mr. Fletcher, a young man, is completing his twelfth year at Salem High School and his second year at the University of Oregon. He is a member of the National Honor Society and the University of Oregon.

Looking back over the period Mr. Fletcher feels that there has been increasing cooperation on the part of student leaders with the administration and that the school has grown more popular in the community and state.

Early in the year of the athletic show by the student body at the University of Oregon last year, Mr. Fletcher is well pleased with the results, especially in the year.

EDMUND A. CARLETON

A different point of view that reveals from a different angle the character and the judgment that reflects wide experience are shown by Miss Marie Robertson, who has been in her position as dean of arts and teacher of world history.

Since the fall of 1921 when she came to teach in Salem High School, through four years as head of the history department and finally to the position of dean, Miss Robertson has turned an ever widening circle of interests that now encompasses thousands of Salem High students. Students have been quick to sense her cordial interest in young people, her ability to that interest, and her zest for living.

Miss Robertson's present plans are to pursue her varied interests in Salem and further develop her skill in writing and editing. In the near future she hopes to visit England and France.

Gurnee Flesher, whose duties are those of both assistant principal and dean of boys, is known for a quiet manner and calm decision.

Being a sports enthusiast since college days at Willamette University, Mr. Flesher, who is a member of the physical education department, has his interest in the Varsity sports, and he encourages the personal participation in the field of sports he now favors fishing, golf, and horse back riding.

The situation was that I was asked to help out a pretty big Mary John School in a town that was very small and isolated and where the only people I knew were Baker, Deery, Benz, and Jake. And I needed to get some help with it, so I tried to get some help from the other people I knew who were in the area and I was able to get some help from them, and better acquainting themselves with the girls around them.

The result for the season is the year for the area and is a credit to the team shown is due to Miss Mary Alderson, adviser of the team.
